

Colorado Alliance of Research Libraries  
Memorandum of Agreement regarding ERIC documents on microfiche  
October 17, 2007

Several members of the Colorado Alliance of Research Libraries hold the ERIC documents on microfiche. Those institutions include: Colorado State University, University of Colorado at Boulder, University of Colorado at Colorado Springs, University of Denver and the University of Northern Colorado.

To ensure that an archival copy of the microfiche is held within the Alliance, members of the Colorado Alliance of Research Libraries agree that:

- a. A complete set of the ERIC fiche owned by the University of Colorado at Boulder will be retained in the PASCAL storage facility so that a last copy of the fiche is kept within the Alliance.
- b. Colorado State University, University of Colorado at Colorado Springs, University of Denver, and the University of Northern Colorado will serve as interlibrary loan sources for the ERIC microfiche. The University of Colorado at Boulder will provide copies of documents on the microfiche on interlibrary loan, as a lender of last resort, thus retaining archival copies of the fiche.
- c. Other libraries in the Alliance with complete or partial collections of the ERIC microfiche will make them available locally.
