

The following values may be used in bcodes, icodes, scodes and codes in a local III system to determine if materials (bibs, items, serial holdings and acquisitions records) can be contributed to an INN-Reach system or not. Be sure to check with your local III system administrator to determine which contribution/suppression codes are locally used.

If you suppress the contribution of a bib record through a bcode it will normally suppress all of the other associated code values. See CSDirect for more details.

<b>CONTRIBUTION/SUPPRESSION VALUES</b>	
<b>Value</b>	<b>Meaning</b>
-	Contribute to Prospector; display in both Local and Prospector OPAC (subfield \$s in Prospector Bib LOCAL PAC, or Item, Order, Checkin fields set to 'N')
l	Contribute to Prospector; display in Local OPAC; do not display in Prospector OPAC (subfield \$s in Prospector Bib LOCAL PAC, or Item, Order, Checkin fields set to 'Y')
n	Contribute to Prospector; do not display in Local OPAC; do not display in Prospector OPAC (subfield \$s in Prospector Bib LOCAL PAC, or Item, Order, Checkin fields set to 'Y')
z	Do NOT contribute to Prospector; display in the Local OPAC
s	Do NOT contribute to Prospector; do not display in Local OPAC
g	Contribute to Prospector. Display at Prospector, but do not show Local Site's holdings. Display record with a general <SYSTEM> owns message: <SYSTEM> Resource. As a general rule in Prospector DO NOT use this value as it will suppress all associated item records for yourself and other sites too.
o	Contribute to Prospector. Display at Prospector, but do not show Local Site's holdings. Display record with a general <SYSTEM> owns message: <SYSTEM> Resource. Do not display on Local OPAC.
